EDUCATION

Parul University
B.Tech in Computer Science

Expected – Nov. 2026
Vadodara, GJ

EXPERIENCE

Freelance

WordPress Developer

Remote

- Built portfolios and web applications using WordPress for UAE clients
- Integrated Stripe for payments, Instagram for personal feed and Whatsapp for pop-up
- Implemented SEO using plugins like Rank Math and Yoast SEO to achieve #1 ranking on search engines

Ascendtis IT Solution

Jan. 2026 – Apr. 2026

Full Stack Intern

Tandalja, GJ

- Built web applications using ElysiaJS, Next.js, TypeORM and MySQL for industry clients
- Collaborated with the team using Git and GitLab to manage version control and code integration
- Delivered system architectures and solutions focused on reliability and scalability for projects

Arth Technology

Apr. 2022 – May 2022

PHP Intern

Vadodara, GJ

- Built a PHP-based Apache server using XAMPP for an e-commerce platform
- Designed database schemas using MySQL for storing the data
- Developed the frontend using HTML, CSS and JavaScript

PROJECTS

Grabbr

- Built a native cross-platform media downloader using ElectroBun to fetch media from YouTube, Instagram, etc.
- Integrated FFmpeg and yt-dlp to build a media processing pipeline for format conversion and extraction
- Designed an automated CI/CD pipeline to build and release the cross-platform binaries

MetaPress

- Architected a distributed blogging platform using SvelteKit, ElysiaJS and Effect
- Designed low-latency Redis caching strategies and per-service database schemas using DrizzleORM
- Integrated services using gRPC and Docker for high throughput service communication
- Integrated Cloudinary for efficient image delivery and ONNX for automated content moderation
